**Navigating by the Southern Cross** Kenneth Morgan,2021-01-28 In this comprehensive study, Kenneth Morgan provides an authoritative account of European exploration and discovery in Australia. The book presents a detailed chronological overview of European interests in the Australian continent, from initial speculations about the 'Great Southern Land' to the major hydrographic expeditions of the 19th century. In particular, he analyses the early crossings of the Dutch in the 17th century, the exploits of English 'buccaneer adventurer' William Dampier, the famous voyages of James Cook and Matthew Flinders, and the little-known French annexation of Australia in 1772. Introducing new findings and drawing on the latest in historiographical research, this book situates developments in navigation, nautical astronomy and cartography

within the broader contexts of imperial, colonial, and maritime history.

Off the Map Fergus Fleming, 2007-12-01 "A fine and lively collection of exploration stories" from the author of Barrow's Boys (Kirkus Reviews). On John Franklin's 1820 expedition to find the Northwest Passage, Michel Teroahaute cannibalized two team members and was preparing a third when he was caught and killed. When Rene La Salle set off for the Mississippi Delta in 1684, he missed the target by five hundred miles, but on landing, immediately built a prison for those who fell asleep on watch. Consummate storyteller Fergus Fleming brings together these and forty-three other gripping stories spanning three ages of exploration in Off the Map. Off the Map recounts episodes both classic and forgotten: The "classics" are brought to life in more vivid colors than ever before; the lesser-known stories offer accounts of extraordinary feats that have long lain hidden. From the Renaissance golden age of Columbus, da Gama, and Magellan, to the twentieth-century heroics of polar explorers such as Peary, Scott, and Amundsen, this is an unforgettable journey into the annals of adventure. "A first-rate one-volume . . . introduction to many hair-raising stories of exploration." —The New York Times "Each story is short, punchy, and crammed with facts . . . Fleming possesses an eye for wry detail." —Adventure "There isn't a dud in the lot . . . Adventure reading of a high order: brisk, fresh and full of color." —Kirkus Reviews

**Indigenous Law and the Politics of Kincentricity and Orality** Amanda Kearney, John Bradley, Vincent Dodd, Dinah Norman a-Marrngawi, Mavis Timothy a-Muluwamara, Graham Friday Dimanyurru, Annie a-Karrakayny, 2023-04-11 This Palgrave Pivot strives to recount and understand Indigenous Law, as set within a remote community in northern Australia. It pays close attention to the realpolitik and high-level political functioning of Indigenous Laws, which inspires a discussion of how this Law models the relational, influences governance and emplaces people in an ordered kincentric lifeworld. The book argues that Indigenous Law can be examined for the ways in which it is a deliberate, stabilizing and powerful force to maintain communal order in relation to Country, a counter framing to popular and 'soft law or soft power asset' visions of such Laws often held in the national and international imaginary. It is the latter which too often renders this knowledge esoteric and relinquishes it to a category of lore or folklore. This is an open access book.

**Make Your Own Maps** Graham Davis,2008 This multimedia book and DVD kit covers the entire world! Featuring 160 ready-made maps of every country and major geographical area, it's a revolutionary new resource for the home (to remember a vacation, for example) and the classroom. The DVD contains the maps themselves, each in the form of a PC and Mac-friendly Photoshop file. Inside the book, there are simple instructions for adapting those maps to your own requirements, and then printing them out, distributing them, or publishing them online. All the maps contain 15 different Photoshop layers, offering a wide choice of cartographic styles, and you can turn country borders, place names, and other elements on or off at will. Every map will print perfectly on a desktop printer, fits on letter-sized paper, and can easily accommodate added graphics, photos, or text.

**A Complete Course in Geography** William Swinton,2023-11-20 Reprint of the original, first published in 1875.

Matthew Flinders, Maritime Explorer of Australia Kenneth Morgan,2016-03-24 This book provides a thoroughly researched biography of the naval career of Matthew Flinders, with particular emphasis on his importance for the maritime discovery of Australia. Sailing in the wake of the 18th-century voyages of exploration by Captain Cook and others, Flinders was the first naval commander to circumnavigate Australia's coastline. He contributed more to the mapping and naming of places in Australia than virtually any other single person. His voyage to Australia on H.M.S. Investigator expanded the scope of imperial, geographical and scientific knowledge. This biography places Flinders's career within the context of Pacific exploration and the early white settlement of Australia. Flinders's connections with other explorers, his use of patronage, the dissemination of his findings, and his posthumous reputation are also discussed in what is an important new scholarly work in the field.

*100 Maps* John O. E. Clark,2005 Presents a chronological overview of the history of cartography, from the earliest maps of prehistory to the engraved maps of the seventeenth century and beyond. Includes illustrations.
