**All Quiet on the Western Front** Erich Maria Remarque, 2012 This First World War classic novel is written in the first person by a young German soldier, Paul Bauer. Only eighteen when he is pressured by his family, friends and society in general, to enlist and fight at the front, he enters the army with six school friends, each filled with optimistic and patriotic thoughts. Within a few months they are all old men, in mind if not completely in body. They witness such horrors and endure such severe hardship and suffering, that they are unable to even speak about it to anyone but each other. The 1930 film adaptation won two Academy Award.

**The Savage Wars Of Peace** Max Boot, 2014-03-11 Anyone who wants to understand why America has permanently entered a new era in international relations must read [this book] . . . Vividly written and thoroughly researched. -- Los Angeles Times America's small wars, imperial war, or, as the Pentagon now terms them, low-intensity conflicts, have played an essential but little-appreciated role in its growth as a world power. Beginning with Jefferson's expedition against the Barbary pirates, Max Boot tells the exciting stories of our sometimes minor but often bloody landings in Samoa, the Philippines, China, Haiti, the Dominican Republic, Nicaragua, Mexico, Russia, and elsewhere. Along the way he sketches colorful portraits of little-known military heroes such as Stephen Decatur, Fighting Fred Funston, and Smedley Butler. This revised and updated edition of Boot's compellingly readable history of the forgotten wars that helped promote America's rise in the last two centuries includes a wealth of new material, including a chapter on the wars in Iraq and Afghanistan, and a new afterword on the lessons of the post-9/11 world.

*Transcultural Memory* Rick Crownshaw, 2016-03-16 Memories are not static or frozen, remaining in particular sites or places, within and belonging to particular groups, cultures or nations; rather, memory travels. Broadly speaking, memory has travelled because of the demographic displacements brought about by modernity's extremes - slavery, colonialism, ethnic cleansing and genocide - and also because of the trade, travel and migration made possible by globalisation. Whether social movement is violent, exilic, migratory, emancipatory or oppressive, it is accompanied by memory. With the movement of people, memories of modernity's histories and postmodern legacies meet, correspond and often become mutually constitutive. Even where memories compete with each other for cultural dominance, mutual dialogue and recognition is implicit if not explicit. Memories travel through and across cultures and national boundaries, a process increasingly facilitated by mass media technologies. This collection explores a range of case studies of transcultural memory as well as theorising the mobility of memory as it travels. It was originally published as a special issue of the journal *parallax*.

**The Unbearable Lightness of Being** Milan Kundera,2023-03-28 “Far more than a conventional novel. It is a meditation on life, on the erotic, on the nature of men and women and love . . . full of telling details, truths large and small, to which just about every reader will respond.” — People In The Unbearable Lightness of Being, Milan Kundera tells the story of two couples, a young woman in love with a man torn between his love for her and his incorrigible womanizing, and one of his mistresses and her humbly faithful lover. In a world in which lives are shaped by irrevocable choices and by fortuitous events, a world in which everything occurs but once, existence seems to lose its substance, its weight. Hence, we feel the unbearable lightness of being not only as the consequence of our pristine actions but also in the public sphere, and the two inevitably intertwine. This magnificent novel is a story of passion and politics, infidelity and ideas, and encompasses the extremes of comedy and tragedy, illuminating all aspects of human existence.

**The National System of Political Economy** Friedrich List,1904

Ladies' Book of Etiquette, and Manual of Politéness Florence Hartley,1860 Do unto others as you would others should do to you. You can never be rude if you bear the rule always in mind, for what lady likes to be treated rudely? True Christian politeness will always be the result of an unselfish regard for the feelings of others, and though you may err in the ceremonious points of etiquette, you will never be im polite. Politeness, founded upon such a rule, becomes the expression, in graceful manner, of social virtues. The spirit of politeness consists in a certain attention to forms and ceremonies, which are meant both to please others and ourselves, and to make others pleased with us ;a still clearer definition may be given by saying that politeness is goodness of heart put into daily practice; the.re can be no true, politeness without kindness, purity, singleness of heart, and sensibility. Many believe that politeness is but a mask worn in the world to conceal bad passions and impulses, and to make a show of possessing virtues not really existing in the heart; thus, that politeness is merely hypocrisy and dissimulation. Do not believe this; be certain that those who profess such a doctrine are practising themselves the deceit they condemn so much.

**Regions and Powers** Barry Buzan,Ole Wæver,2003-12-04 This book develops the idea that since decolonisation, regional patterns of security have become more prominent in international politics. The authors combine an operational theory of regional security with an empirical application across the whole of the international system. Individual chapters cover Africa, the Balkans, CIS Europe, East Asia, EU Europe, the Middle East, North America, South America, and South Asia. The main focus is on the post-Cold War period, but the history of each regional security complex is traced back to its beginnings. By relating the regional dynamics of security to current debates about the global power structure, the authors unfold a distinctive interpretation of post-Cold War international security, avoiding both the extreme oversimplifications of the unipolar view, and the extreme deterritorialisations of many globalist visions of a new world disorder. Their framework brings out the radical diversity of security dynamics in different parts of the world.
